Comprehensive Approach

(How DELIAN works with the Government of Canada)

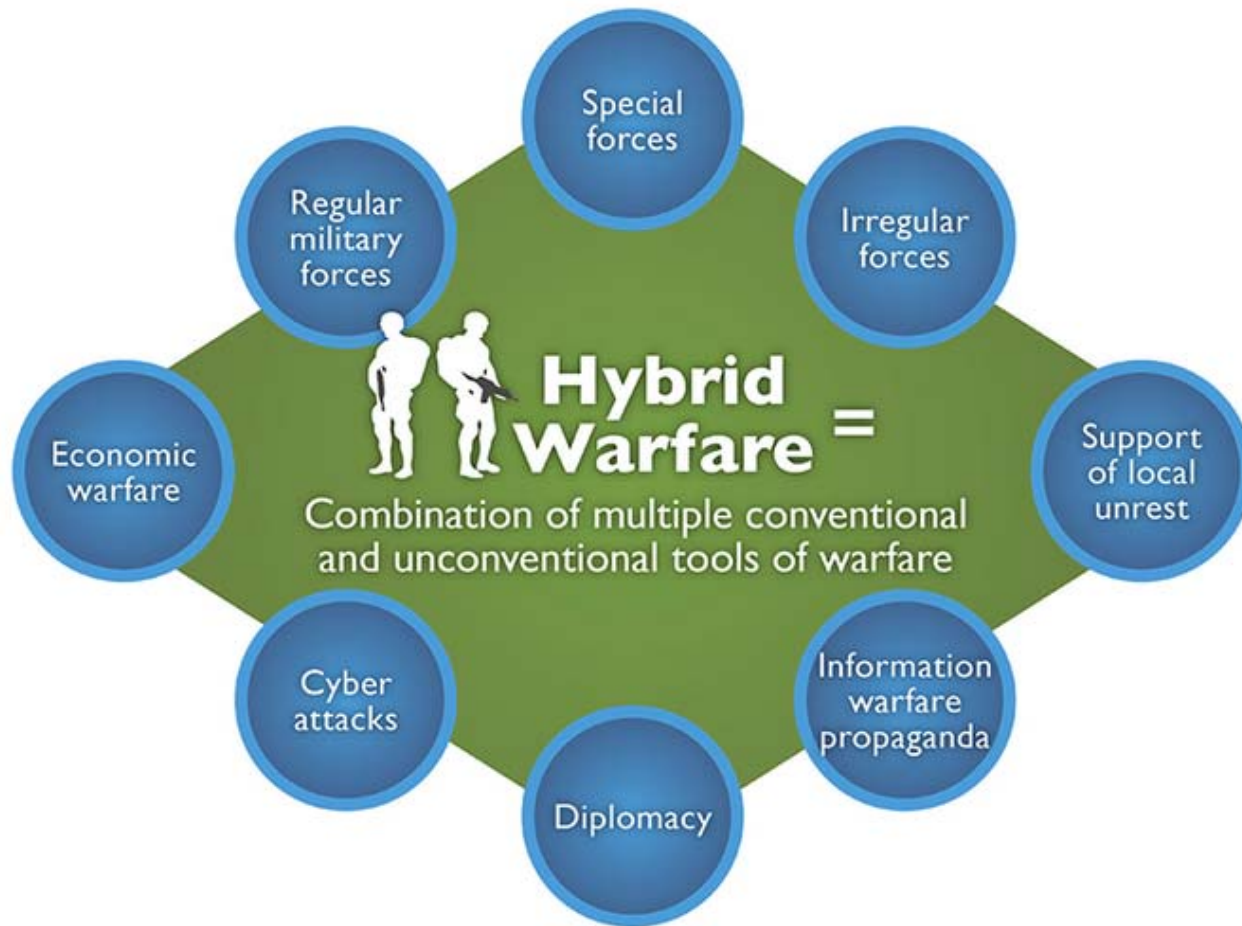

Europe's Security Challenges - 2016

NATO's mission is to safeguard the freedom and security of its members through political and military means

POLITICAL - NATO promotes democratic values and encourages consultation and cooperation on defence and security issues to build trust and, in the long run, prevent conflict.

MILITARY - NATO is committed to the peaceful resolution of disputes. If diplomatic efforts fail, it has the military capacity needed to undertake crisis-management operations. These are carried out under Article 5 of the Washington Treaty - NATO's founding treaty - or under a UN mandate, alone or in cooperation with other countries and international organizations.

Hybrid warfare is a military strategy that blends conventional warfare, irregular warfare and cyber warfare. By combining kinetic (combat) operations with subversive efforts, the aggressor intends to **avoid attribution or retribution**.
